Christine Bilinski

Business Operations | Process Improvement | Business Analysis

Haldimand-Norfolk, Ontario | cbilinski101@gmail.com

Portfolio | LinkedIn | GitHub

PROFESSIONAL PROFILE

Operations and customer support professional with experience improving administrative workflows, developing practical Excel-based solutions and resolving operational problems. Naturally inclined to question how processes work, identify potential problems and explore practical ways to make them more efficient and reliable. Brings customer-facing experience, recent technical training and independently developed projects, with a strong interest in analytical work, professional development and long-term career growth. Seeking a junior or associate Business Analyst opportunity to develop formal skills through hands-on experience and mentorship.

CORE SKILLS

Process improvement and problem-solving | Excel formulas and Google Sheets | Workflow analysis and testing | Requirements definition through personal projects | Data accuracy and reporting | Technical troubleshooting | SQL and Python fundamentals | Remote collaboration

PROFESSIONAL EXPERIENCE

Live Services Agent | ServiceTitan

Remote, part-time | May 2025 - Present

- Coordinate scheduling and service support in a remote, technology-focused customer service environment.
- Investigate operational issues, troubleshoot problems and communicate solutions clearly.
- Maintain strong performance against service metrics and quality expectations.
- Developed an internal ZIP code lookup tool to make information easier for colleagues to retrieve.
- Identify opportunities to improve everyday workflows and share practical suggestions.

Receptionist / Administrative Assistant | Haldimand-Norfolk REACH

Townsend, Ontario | March 2022 - August 2024

- Handled front-desk reception, visitor sign-ins, telephone inquiries and routine administrative responsibilities.
- Provided administrative support to organizational programs and assisted staff with recordkeeping.
- Developed Excel-based conditional alerts to flag when children’s age-related program categories required updating.
- Improved spreadsheet tracking and organization to make important information easier to identify.
- Assisted with survey data entry, annual charts and reporting.

Bookkeeper / Payroll Assistant | Disbrowe Chevrolet Buick GMC

St. Thomas, Ontario | August 2007 - August 2009

- Processed payroll, maintained records and handled related tax documentation and remittances.
- Created an Excel time-card calculator to simplify calculations from paper time cards.

Mid Office Support | Scotiabank

Fort McMurray, Alberta | August 2006 - August 2007

- Reconciled daily ATM records, maintained financial documentation and supported administrative operations.

PERSONAL PROJECTS

Sport Volunteer Helper - Volunteer Coordination Application

Developed an AI-assisted application for coordinating youth sports volunteers. Defined requirements, designed workflows, tested real-world scenarios and refined functionality based on usability and fairness considerations.

Volleyball Scorekeeping Helper - Guided Scorekeeping Application

Developed an AI-assisted application to simplify volleyball scorekeeping. Defined user workflows, tested scoring and lineup scenarios, identified issues and guided improvements.

ACADEMIC PROJECT

Customer Support Dashboard - University of Toronto Data Analytics Bootcamp

Analyzed sample customer support data using SQL queries and visualizations to examine ticket volume, issue categories and response times.

EDUCATION

University of Toronto - Data Analytics Bootcamp, 2025

Fanshawe College - Certificate in Office Administration
