CHRISTINE BILINSKI

Customer Operations | Process Improvement | Data Reporting

Haldimand-Norfolk, ON | cbilinski101@gmail.com
LinkedIn | GitHub | Portfolio

PROFILE

Customer operations and administrative professional with experience in scheduling, service support, survey reporting, payroll and financial records. Enjoys organizing information, solving practical problems and making everyday workflows easier to use.

University of Toronto Data Analytics Bootcamp graduate with project-based experience in Excel, SQL, Python and dashboards. Interested in combining customer experience with reporting, data accuracy and process improvement.

CORE SKILLS

Customer Service | Scheduling | Survey Reporting | Data Visualization | Excel & Google Sheets | Record Accuracy | Process Improvement | Bookkeeping

PROFESSIONAL EXPERIENCE

Live Services Agent | ServiceTitan

Remote, part-time | May 2025 - Present

- Coordinate scheduling and service support in a high-volume customer-service environment.
- Resolve scheduling and service-related issues through clear communication and problem-solving.
- Created a Google Sheets ZIP Finder tool with lookup logic to support serviceability checks.

Administrative Assistant / Receptionist | Haldimand-Norfolk REACH

Townsend, ON | March 2022 - August 2024

- Provided administrative support for Family and Youth programs, including scheduling, documentation, confidential files and phone inquiries.
- Recorded survey results throughout the year and created annual charts to summarize responses.
- Prepared reports and tracked service data for organizational and funding requirements.

Bookkeeper / Payroll Assistant | Disbrowe Chevrolet Buick GMC

St. Thomas, ON | 2007 - 2009

- Processed payroll for hourly, salaried and commission employees; maintained tax documentation, remittances and year-end payroll reports.

Mid Office Support | Scotiabank

Fort McMurray, AB | 2006 - 2007

- Reconciled daily ATM records, maintained financial documentation and assisted with customer service and office administration.

SELECTED PROJECTS

Customer Support Dashboard - Used sample support-ticket data, SQL queries and charts to explore ticket volume, issue categories and response times.

Excel Crowdfunding Analysis - Analyzed campaign outcomes and monthly trends using pivot tables and charts; documented dataset limitations.

Volleyball Scorekeeping Helper - Developed a personal app with AI assistance to guide lineups, scoring and substitutions; tested it at games and identified workflow issues.
